Profile

A competent Software Engineer adept in all stages of software development. Knowledgeable in user interface, testing and debugging processes, bringing forth expertise in design, installation, testing and maintenance of web systems. Equipped with a diverse and ever growing skill-set. Able to translate clients' requirements into application designs and systems requirements. Proficient in an assortment of technologies, including, JavaScript, Angular, Python, Django, JSON and SQL. Able to effectively self-manage during independent projects as well as collaborate in a team setting. Aspiring to not only utilize my technical skills to pursue my goals and have a successful career but also inspire past and future generations to believe in themselves.

Objective

I aim to attain and maintain high standards of professionalism, integrity and ethics in my profession to enhance its practice in all organizations. I additionally aim to develop a career in a challenging environment, an opportunity to learn, advance and grow as an individual with ability to handle different responsibilities with minimum supervision.

Personal Skills

- Quick learner keen to enhance and gain new skills
- Self driven with good communication skills and ability to work in teams
- Very social and interactive with ease in blending in different environments
- Eloquent public speaker with little to no stage fright regardless of audience size. Imaginative and critical thinker that enjoys brainstorming ideas and solving problems
